

NOTICE OF TP3 PERFORMER APPLICATION

Posted May 9, 2006

The Tennessee Pollution Prevention Partnership (TP3) is considering James H. Quillen VA Medical Center (Quillen) and Marvin Windows and Doors (Marvin) for **TP3 Performer** status. Quillen and Marvin's applications for this top level in TP3 indicate their commitment to pollution prevention and continual improvement to the environment. Five Success Stories that demonstrate measurable results in pollution prevention are required for **Performers**. Quillen and Marvin's Success Stories are on the TDEC Internet at www.state.tn.us/environment/ea/tp3/tp3_members.shtml

Quillen and Marvin have met the standard for "Commendable Environmental Compliance" for the past three years, have initiated local community outreach activities, and are mentoring other companies through the Partnership. A qualified reviewer verified that Quillen and Marvin's Environmental Management Systems exceed the TP3 minimum criteria.

This notice offers the opportunity for public comment. The TP3 Performer Level Review Panel will evaluate Quillen and Marvin on June 8, 2006. Comments regarding Quillen and Marvin may be submitted by E-mail to pollution.prevention@state.tn.us and must be received by May 26, 2006. TP3 staff will research the comments, communicate with the Performer applicant, and respond to comments before the meeting on June 8, 2006.
